**Precipitation:** 0 mm      **Precipitation probability:** 0 %  
**Zero degree level:** 4000 m      **Snow level:** 3600 m

Central Europe, and therefore the Alpine region as well, remains under the influence of a north-westerly upper-level flow. In the morning, conditions are very good with partly clear skies. High clouds will soon appear above the summit level, whilst the few cumulus clouds in the afternoon will remain small and harmless.
